

Center of Hope Receives Special Donation From Wildlife & Fisheries

The Center of Hope will welcome back special guests on Tuesday, October 11, at 10 a.m. as grateful officers of Wildlife & Fisheries present them with a donation.

Lieutenant Darrell Moore, president, and Lieutenant Remy Broussard, vice president, of the Louisiana Wildlife Agents Association will present a donation to the Center of Hope in grateful appreciation of its hospitality during the search and rescue operations following Hurricane Katrina.

“The Center of Hope did so much for us when we were staying there, and we’d like to give something back,” said Lieutenant Moore.

The Center of Hope originally opened its doors to evacuees fleeing the New Orleans disaster, but after the group became too large to accommodate, they were moved to Bethany’s north campus. The Center of Hope then made room for more than 200 rescue workers needing a place to rest between shifts. Bedding, showers, and hot evening meals were also provided to rescue workers staying at the Center of Hope.
